JACIE WORKSHOP

"Data Quality: The Gateway to Remote Sensing Applications."

**Renaissance St. Louis Grand Hotel
St. Louis, MO 63101**

The Joint Agency Commercial Imagery Evaluation (JACIE) team is pleased to announce **The Civil Commercial Imagery Evaluation Workshop, April 16-18, 2013**, at the Renaissance Saint Louis Grand Hotel, Saint Louis, MO. Hosted by NASA, NGA, USDA, and USGS, this will be the 12th annual gathering of calibration and validation information sharing.

The JACIE workshop engages Federal agencies, their partners and the Commercial Remote Sensing industry with a growing body of available remote sensing data research and assessment results. This highly regarded and independent workshop affords the opportunity for presenters to exchange information regarding the characterization and application of commercial imagery used by the public sector. Presenters also have the opportunity to provide updates for current and future enhancements to existing sensors and promote new sensor uses and data products.

For more information, contact Gregory Stensaas, JACIE Chair, USGS/EROS (605) 594-2569, stensaas@usgs.gov;

Registration information and call for abstracts forthcoming.
